EDMONTON, ALBERTA, TUESDAY, JULY 28 1903

No. 17

## TELEGRAPHIC.

### DOINGS AT THE CAPITAL

#### Parliament Will Sit Till September

(Special to the Bulletin.)  
Ottawa, Ont., July 27.—The Grand Trunk Pacific bill has been promised for tomorrow. The excitement caused by Hon. A. G. Blair's resignation has abated. Emerson is certain to enter the cabinet for New Brunswick. There is considerable amendment expected in the Grand Trunk Pacific proposal. However, there has been no newspaper's forecast this time. Today's session was occupied by the Brockville railway bill. The session will last till September.

**GRAIN QUOTATIONS.**  
Fort William wheat, No. 1 hard, spot, 85 1-2 cents a bushel.  
Winnipeg oats, No. 2 white, 31 1-2 cents a bushel.

**NO TELEGRAPHIC.**  
A breakdown of the wires east of Calgary is responsible for no telegraphic service from Winnipeg today.

#### LOCAL

—Train left Red Deer on time.  
—A very large amount of furs will arrive in Edmonton within the next few days from the far north.

—There will be a practice of the Edmonton cricket club this evening at 7.30 on the exhibition grounds for all members.

—The past year has been the best in many for the Indians in the north. Rabbits will be very numerous this winter and the rabbit supply means a great deal to the Indians.

—A number of new settlers, have been going into the country adjacent to Lesser Slave Lake. They are greatly pleased with the country as crops and garden vegetables are thriving.

—Mr. N. Millette has secured the contract for the erection of the new Quebec hotel at Fort Saskatchewan, which will cost in the neighborhood of \$8,000. Excavation and the work of construction will proceed immediately.

—We have received a letter from a Minneapolis coal merchant inquiring about Edmonton coal lands. He asks us to forward him an analysis of our best Edmonton coal. Can some one furnish us with this information?

—Calgary is up against hard luck. Indian sports were extensively advertised for last Thursday night, but the rain descended in torrents and they had to be postponed. They were held Friday evening and were not an unbounded success.

—Calgary Albertan.—William Best of the firm of Best and Coupland, city auditor, will leave Calgary to establish a school similar to the Calgary Business College at Edmonton. The Calgary Business college will be handed over to Mr. Coupland. Mr. Best has been in business here for some time and will be missed from Calgary.

—We are requested by the C. P. R. authorities to again announce that excursions will be run to Vancouver and Victoria commencing August 1st to 14th, inclusive. Tickets are limited to return October 15th and are good to stop over en route, but the destination must be reached in fifteen days from the date of issue. The rate is \$42.70.

—Purchaser's boarding house has challenged the printers for a baseball match this evening on the old race track. The boarding house team is strengthened by having several members of the city team playing, among others, C. Hamilton, the star player of the city team. However the printers have accepted the challenge and will do their best to put it all over on the game commencing at seven o'clock, sharp. Everybody should turn out and see the match.

—Regina Leader.—The grading of the Arcola line has now been completed at this end right up to its junction with the main line. From Mr. Peterson's house a Y extends to the main line, joining it both east and west of the crossing. The work of ballasting the new Y and the laying of new tracks in the west end of the yard is being proceeded with. The foundation for the new water tank on the south side of the main line track and slightly east of the present tank is being laid. The rumor which was in circulation some ago to the effect that the C. P. R. contemplated building a new station here was confirmed during the past week by a railway employee who said that a large new station would be built next year on the site of the former station east of Broad street.

#### COUNCIL MEETING

The postponed meeting of the city council was held on Monday evening commencing at 8.30 o'clock. His Worship Mayor Short and Councillors Gallagher, Grierson, Cushing, Heimnick and Fraser were present. The minutes of the last meeting were read and adopted on motion of Councillors Fraser and Grierson.

The council was informed that the C. P. R. contemplated the removal of the telegraph office from its present position to First street, Hudson Bay Reserve. It was decided to protest against this removal from the business portion of the town and a resolution was drawn up instructing the Secretary-treasurer to write J. B. Jenkins, superintendent of the C. P. R. telegraph department, protesting against this change. The resolution carried, Com. Heimnick alone objecting.

Cushing Bros. wrote the council requesting permission to build a crossing from the corner of Namayo avenue to Third street. The letter also drew the council's attention to the defective drainage on the lots adjoining their mill property. The request was granted and the matter of drainage referred to the City Engineer with power to act.

Resident Engineer Ashbridge inquired if it were the intention of the council to complete further house connections this fall. He suggested that it would be advisable to complete the laying of all house connections as the City Engineer intended to submit a plan for the macadamizing of Jasper avenue next year. The council unanimously decided to complete the laying of all service connections along Jasper avenue, at least as far west as First street Hudson Bay Reserve, this fall.

H. W. Heathcote, by a communication to the council discussed at considerable length, the recent impounding of a large number of cows. It appears that there was considerable hard feeling at the way the raid was carried out. He suggested the appointment of a town herd and other improvements. Considerable discussion followed and the Secretary-treasurer was instructed to inform Mr. Heathcote that it was the council's intention to rigidly enforce the pound by-law in future. Councillor Heimnick was appointed to select a suitable pound and to report at the next meeting.

Two thousand of the immigration pamphlets issued by the Bulletin company, were ordered to be forwarded to J. Obed Smith, commissioner of immigration. A letter was read from Mr. Smith wherein he made complimentary references to the character and usefulness of the pamphlets.

The council has been put to considerable trouble in connection with the matter of securing land upon which to erect the waterworks engineer's residence. The Hudson Bay Company refuse to sell any of their property adjoining the agricultural grounds. It has been decided to use half the street next the power house, and in order to close this up, the Secretary-treasurer was instructed to advertise their intention, according to the legal regulations.

J. T. Doolin wished to rent the old Gibbons house, now belonging to the town, and offered twenty dollars a month in advance. The renting of the house was left in the hands of the City Engineer.

Application was made to the council for the installation of a gas plant similar to the one about to be installed in Calgary. As this would be in violation of the municipal ordinance, it was thought advisable to lay the matter over for the present.

Mr. Grant, of the J. A. Stovel Company, addressed the council on the question of their contract for sewer pipe. He pointed out that the council, according to agreement, should not withhold the balance of the money due on the contract. On motion of Councillors Gallagher and Grierson the matter was referred to the Engineer with instructions to make inquiries, and in doing so, to order the payment of the money.

On motion of Councillors Cushing and Fraser permission was given R. J. Manson to move out the sidewalk in front of the Alberta hotel while construction work was proceeding.

W. H. Hooper and others petitioned for water and sewer connections on Queen's avenue north from Jasper to Main street and that a catch basin be put in, and also a drinking trough on the market square. On the motion of Com. Gallagher, the City Engineer was instructed to inform the petitioners that as soon as the usual guarantees will be given the work will be proceeded with in order of priority. Petitions were read for the following sidewalks:

Northeast intersection of First street and Jasper avenue to the south-east intersection of First and Rice streets.

Continued on Page Two.

#### PERSONAL

Dr. P. Roy, wife and child, returned from a visit to France last night.

Com. Gallagher returned last night from attending the Winnipeg exhibition.

Peter Louit, Jr., of Chippewyan, arrived in Edmonton yesterday. His furs will be here in a few days.

Miss Mary Reid and Miss Rose Dunlop left for Lacombe this morning to visit Miss Goldie Cannon and Miss Olla Standish.

Sydney Smith, bookkeeper for Brodie and Cornwall, Lesser Slave Lake, is spending a couple of weeks in Edmonton.

—The baseball match which was to have taken place last evening between McDougall & Second's team and a team composed of traders from the north, failed to materialize, the traders not putting in an appearance.

Calgary Albertan.—Rev. W. W. Peck, Edmonton arrived in the city on Thursday night. He will supply at Knox church for the next few weeks and will take charge of the congregational work.

#### EDMONTON TRADE

Trade has been very brisk at the Station during the past week. Numerous drays have been constantly at work loading and unloading freight. During the week 46 cars of freight arrived at Edmonton station and eight were sent out. The appended table shows the number of cars and the commodities in each:

Incoming Cars.	
Sundries	4
Pipe	4
Binder (twine)	1
Tinware	1
Implement	4
Liquor	4
Lumber	9
Hardware	3
Lime	1
Groceries	2
Hard coal	1
Wire	1
Binder (twine and hay)	1
Binders	1
Sugar	1
Bags	1

Wagon Cars	9
Total	46
Outgoing Cars.	
Flour	1
Hides	1
Wagon cars	6
Total	8

#### DEATHS

O'BRIEN.—At Edmonton Public Hospital, July 28th, 1903, in his 30th year, Arthur V. O'Brien, son of the late Rev. Arthur Evanston O'Brien, Jersey, England. The deceased was a nephew of E. A. Braithwaite, M.D., and one of Strathcona's Bar.

The funeral will take place from All Saints' church, on Wednesday afternoon at 2.30 o'clock.

## DOWN THE RIVER TO LINDSAY AND DALY'S COAL MINE

Through the kindness of Messrs. Blom and Harbottle a representative of the Bulletin had the pleasure of a trip down the river a few days ago on the gasoline launch Alberta Belle. Leaving the landing place at three o'clock, we were soon making our way down the river. Passing Fraser's mill and Gallagher's meat packing establishment we could not abstain from picturing in our mind's eye the industries which will ere long be established on these flats adjoining Edmonton. With abundance of water and power, inexhaustible and cheap fuel, and the necessary railway facilities, nothing can stop Edmonton's industrial growth. Fraser's mill is the scene of the greatest activity. Rafts of lumber are constantly being raised to the top of the bank. The new mill has been erected and is now merely awaiting the installation of the new machinery which is now on the way from the east. At this point too, numerous scows are loading with machinery and provisions of all kinds for Fort Saskatchewan, Fort Pitt, Battleford and other points. This business will attain immense proportions as the enormous stretch of fertile country between Edmonton and Battleford becomes settled up. Numerous bathes along the river bank and the grassy and wooded flats adjoining the river prove that Edmonton has in her immediate neighborhood numerous resorts for summer residences. What strikes the stranger most strongly in the Edmonton district are the numerous openings to old mines in the river banks. In past years prospectors dug holes in the banks during the winter and took out coal. They made no pretence at proper mining for the land, in the majority of cases, did not belong to them. These excavations through time caused land slides, closing up the mouth of the mine and the work would stop. A practical miner in this district says that coal will not be mined to proper advantage until shafts are sunk and the coal raised to the surface. This will add slightly to the cost of mining but will abundantly pay for the necessary extra work. Seams of coal of varying thickness may be seen all along the banks, which are prettily wooded, but in places are defaced by land slides which have, and are now occurring at constant intervals. The sand bars upon which the old gold dredges worked were pointed out and the tailings thrown out by the dredges in washing the river bottom for gold. In thirty minutes from the time of starting we had reached our destination, Lindsay and Daly's coal mine, to which we had gone to get a scow load of coal. Delay was made long enough to permit of a visit to the mine which is leased and is now being worked by Mr. J. Steward, formerly of the Lake of the Woods district.

A trip through the mine, especially if it is a new experience, is very interesting. Taking candles in our hands at the mouth of the mine and stooping we make our way along the tunnel. Soon the roof rises and we are able to stand upright. Examining the walls of the passageway, we find them composed of coal, the whole surface of which is covered with dripping, ice-cold water. Soon branches open up from the main tunnel. Following these in we come to old and worked out chambers for the mine has been in operation for several years. At present three branches are being worked, the mine having now a capacity of two hundred tons a day, although the dozen men who work in the mine only take out about forty tons a day. The seam of coal is of an exceptionally fine character and is from six to eight feet thick where it is at present being worked. The longest tunnel into the mine is one hundred and seventy-five feet long. A small tramway is laid on the floor of the mine on which the coal cars are run out. From the mouth of the mine a trestle work, five hundred and twenty feet long, is built over which the cars run. At the end of the trestle work is a sliding dump used for loading the coal onto scows. The output of the mine could be greatly increased if scows could be obtained more easily. This difficulty will be largely obviated when steamers will be put on the river next

year. A visit to this mine effectively dispels any doubt that may exist in one's mind about the quality and extent of Edmonton's coal lands. Much deeper seams exist in the vicinity of Edmonton, one or two of which are being worked, but we have not yet had the opportunity of visiting them. The return trip from the mine with a scow of coal in tow, was made in about two hours.

## COUNCIL MEETING

## Continued From Page One.

Crossing from Howard to First street and along north side of Howard street. Six foot sidewalk along Fourth street from Namayo to Kinslino.

These petitions were referred to the Engineer with power to act. Application was made for the grading of Fourth street from Victoria to McKay street, H. B. R., and along Fourth street, B. 12, from Namayo to Kinslino. The requests were granted, the cost to be assessed to the adjoining property holders.

Instructions were ordered to be issued to the Edmonton water works company compelling them to adhere to their agreement and deliver only properly filtered water. Failing in this their agreement would be cancelled.

The auditor was requested to prepare a by-law to raise money to defray expenses of additional waterworks supplies and extensions.

The police were instructed to see that the awnings along Jasper avenue complied with the provisions of the law. If necessary the by-law will be amended to make it compulsory to have awnings at least 7 1/2 feet high. The recently defeated nuisance ground and gravel by-law came in for a great deal of discussion. The merits of the bylaw were discussed and it was decided to call a public meeting of the ratepayers to discuss the bylaw on Friday evening next at 8.30 o'clock in Robertson hall.

Three tenders were received for the erection of an engineer's house and coal shed. W. J. Carter for \$2,225; Chas. May, \$2,300; Gardner & Dalton, \$2,156.15. The latter tender was accepted.

A bylaw for the borrowing of \$10,000 on current expenditures and further to borrow \$4,000 from the sinking fund to meet current expenditures, both to be repaid upon the collection of the taxes, was given its third reading and finally passed.

The estimates for the current year were discussed. Councillor Heimick asked for an additional \$500 to fence the market square, but the other councillors were not in favor. Further discussion of the estimates was deferred until after the public meeting to discuss the nuisance ground and gravel pit by-law.

The following accounts were ordered to be paid:

E. H. Simpson, \$10.  
Mr. Bowers, \$7.50.  
E. Manchester, \$52.  
P. McCallum, \$21.35.  
Jas. A. Sigel, \$475.65.  
Edmonton Carriage company, \$14.60.  
National Meter Company, \$34.  
Edmonton Water operation Company 230.62.  
W. Chipman, \$300.  
Latta & Lyons, \$4.70.  
Ross Bros., \$192.29.  
Finance pay sheet, \$336.33.  
Gardner & Dalton, \$7.  
A. Driscoll, \$15.  
Beck, Emery & Dubuc, \$14.45.  
E. M. Hoover, \$6.85.  
W. H. Clark, \$128.16.  
Wills & Deyl, \$301.92.  
Wills & Deyl, \$8.50.  
Latta & Lyon, \$62.90.  
W. B. Poucher, \$19.70.  
Pay sheet, \$395.  
John Robertson, \$7.75.  
W. E. Grierson, \$11.25.  
E. M. Hoover, \$11.60.  
J. Curry, \$15.75.  
Latta & Lyons, 10c.  
Geo. T. Briggs, \$10.90.  
Electric light line work, \$40.25.  
C. V. Wendell, \$2.  
John Tullock, \$2.  
The meeting then adjourned to meet Saturday evening at eight o'clock.

Men's and Boys'  
Clothing & Furnishings

### ASTLEYVILLE NEWS

The picnic held at Astleyville on Wednesday, July 22nd, was a decided success, and as the day turned out nice and fine, everybody present enjoyed themselves thoroughly.

Grain in this district is looking well. Oats, wheat and barley are well advanced and headed out, with every prospect of an abundant and early harvest.

The contractor engaged to build the new Sturgeon Valley school in this locality, is out here and will commence work at once.

Homestead seekers are frequent visitors in this part of the country, which is rapidly being settled.

There is a quantity of lumber still passing through here from Bernier's saw mill.

Settlers in this district have been busy the past week doing statute labor but are now pretty well through.

Mr. and Mrs. Turgeon and family of four girls arrived here from Australia about four weeks ago and two weeks ago another new settler arrived, a little daughter was born to Mr. and Mrs. Turgeon, to whom we extend congratulations.

Mr. Crull has completed his contract for hauling lumber for the new school.

Many of the settlers out here are asking the question why \$500 should have been spent on the base line straight out from Sturgeon bridge to the Fort Saskatchewan trail for the accommodation of freighters etc., and then left in an impassable condition, when probably \$200 or less would make it a good, passable road; and as this is the direct route to Edmonton for all who live north of the Sturgeon bridge, there is much comment on the impossible condition of it. We voted for record and good roads. Now we would like to see the good roads.

### Sweden Buying Canadian Coal

Montreal, July 22.—The steamer Oscar Y. recently arrived at Copenhagen with a cargo of 5,500 tons of coal from the Dominion Coal Company to enable Danish shipbuilders to test its value. M. Philippe Crozier, the French minister at Copenhagen, reports finding it, owing to its great calorific intensity, superior to the best South Yorkshire coal.

It is stated that the company has contracted with a Stockholm firm for 50,000 tons, 20,000 to be delivered at Stockholm, 10,000 at Lube, 10,000 at Geste and 10,000 at different ports of Norway and Sweden.

### THE WEST WANTS RAILROADS

The Red Deer, Alberta, Advocate, in a recent issue says:—  
"Throughout the West the impact of a terrible urgency for increased transportation facilities is keenly felt. If ex-minister Blair can and will bestow this boon by a better method than the one proposed he will receive our benediction; but it is mockery of our plight to bid us wait. The immensity and insistence of an approaching crisis in transportation must be reckoned with right now, and the politician who does not do so is an ostrich with his head in the sand. The people of the West unanimously join in the multitudinous cry, 'Get us railway facilities; get them as providently as you can; but—do not fail to get them.'"

### C & E Appeal Allowed

London, July 26.—Leave to appeal was granted in the case of the Calgary and Edmonton Railway vs. the King an action brought by the railway company to cancel and amend patents for lands granted in aid of the construction of the Calgary and Edmonton railway by striking out reservation of baser metals inserted in the crown grant, as the company claimed they were entitled to a free grant of the lands, subject to no reservation, save as to gold and silver, and for a declaration that all future grants should issue without reservation of the baser metals. This involves the question of ownership of coal deposits in the foothills of the Rocky mountains.

A. E. TUCKER

Clarke's Orchestra

Open for all engagements, church entertainments, private parties, etc., etc. For particulars apply to W. CLARKE.

## VERMILION NOTES

The long spell of dry weather is now broken, and we are enjoying a wetting. Crops are taking on a prosperous look, and alfalfa growers will have to find something else to hawl about.

There is a much larger acreage under crop than in previous years, but we will not tell how much as some people would wonder what we want with a roller mill and two stone mills.

There will be three sawmills in operation here this summer. The total output will be nearly half a million feet. H. H. Lawrence and Sons will put in a planer and the Roman Catholic mission a shingle mill next year. This will make their mills complete.

The new steamer owned and operated by the Roman Catholic mission, has made her trial trip to St. Johns and down here with the treaty party. After treaty was paid here the steamer went to Vermilion Falls, 50 miles below here and met the steamer from Chipewyan. F. Brick's Hudson Bay Company outfit was taken up on her return trip to Peace River crossing.

This steamer will shorten the time required to reach civilization and will make the burden of mail carrying lighter, also removing the embargo on freight.

James Lawrence has sold out his farm and stock to H. H. Lawrence & Sons, and is at present helping them with their farm and mill.

Robert Jones reached home safely with his team and machinery from Edmonton. He is now well equipped with teams and implements.

There is an epidemic raging here this spring that has effected the whole settlement, not exactly smallpox, but small-fox fever. There are no less than 120 cases in captivity.

J. M. Macoun of the Geological Survey, is at present here with the intention of finding out what part of this region is adapted for agricultural purposes. He expresses himself well pleased with the country he has seen and thinks that judging by the soil, the land on the height away from the river is better adapted for wheat than the heavy alluvial soil of the flats. He will put in the summer in this and the upper Peace river country and will publish his report in the fall.

Last week Mr. Bridgeman, the engineer of the new steamer, was united in marriage to Miss Augustine Lecore, niece of the reverend Father Superior. They had known each other but a few days. They will reside at the Crossing.

Mr. and Mrs. W. T. Livock passed through this week on their tour of inspection of the Hudson Bay Company's posts.

Mrs. Wiley and daughter were among the visitors from Chipewyan who came up last week on the steamer.

Rev. Father Lecore, who has been in charge of the mission here for the past year, goes to Prince Albert. Rev. Father Jossua resumes his duties as Superior.

Commissioner Conroy reached here three days ahead of schedule time, accompanied by Inspector West, and found the Indians not only ready for their flour but for their dog as well.

The Hudson Bay Company have erected a store on the north side near F. Brick's. There will be a new Roman Catholic church erected near them during the coming year.

After Revillon Freres set up shop, North Vermilion, alias Butterworth, will have quite an imposing appearance.

The members of the church of England will doubtless be glad to learn that a new bell is shortly to be brought in from Toronto for the building, from which the way is shortly to receive a coat of paint and whitewash.

Mr. F. D. Wilson goes out with the steamer for a holiday. He is taking his children to the east where they will remain in school.

The Decring Implement Company, of Edmonton, have established an agency here. The Hudson Bay Company are handling it and have agreed to supply as well as improve. No time at cost. This last feature should be a great encouragement to settlers, as it obviates the necessity of each one going to Edmonton for machinery, obliging them to neglect farm work for one season.

What we need next is a seventy-five per cent reduction in the price of some of the staple articles, then we can do something and not be obliged to work the year round to pay store bills.

Revillon Freres have already promised us something in this line, if they only do it. They will supply the settlers at about twenty-five per cent below trade prices, which are from fifty to ninety per cent lower than the present prices.

The new roller mill, owned and operated by the Hudson Bay Company, is turning out a very satisfactory grade of flour, but there is as yet only enough to supply the local trade. After this year we expect to supply the whole north side with Vermilion flour, bacon, butter and beef, at reasonable prices and in unobtainable quantities.

This roller mill is proving to be a good thing as it insures a market for all good wheat at \$1.50 a bushel cash and enables the settlers to get flour in

the early winter and fall as soon as the threshing is done and not obliging them to wait till spring to get a few bushels run through the stones. The roller mill does gristing at one-fifth, and so far has given good satisfaction. There is, however, one advantage in having the smaller mills in the same settlement as they prevent the large mill from cornering wheat or flour and exercising a monopoly in the flour trade. This is the present state of the mill situation here and as there is only enough grain raised to keep the smallest one going half of the time prices of wheat should keep up to a living rate.

In course of time we hope to have a regular mail service from the Peace River Crossing, but for the present we must read busy magazines and old newspapers and be content.

June 26th 1903.

## EDMONTON CHURCHES.

## METHODIST CHURCH.
